

# BLOW AWAY THE CLOUDS

What you need: a straw and a cotton ball for each child and two pieces of string or rope

Music requirements: None

Age suitability: 4+

Lie the two pieces of string or rope parallel to each other about 2 metres apart. All the children lie along one piece of the string with their cotton ball and straw. The cotton ball is placed along the string and when you say "Go!" each child has to use their straw to blow the cotton ball over the other piece of string. They are not allowed to use their hands. They are only allowed to move the cotton ball by blowing air through the straw.

You can spray the cotton balls different colours for effect but don't spray them too heavily otherwise the cotton balls shrink and lose their fluffiness.
