

# CHEESE BALL

## INGREDIENTS

Approximately 500grams of grated tasty cheese  
3 or 4 chopped shallots (spring onions)

Mayonnaise to bind it together – use  $\frac{1}{4}$  cup initially to start binding and then add slowly until the desired consistency is reached

Chopped nuts to roll the finished ball into – you can use whatever the desired nuts are

## METHOD

1. Mix the cheese, shallots and mayonnaise together in a large mixing bowl.
2. Once you reach the desired consistency put the mixture into a ball.
3. Put the chopped nuts onto a plate and roll the cheese mixture into the nuts until the ball is covered in the chopped nuts.
4. Refrigerate until ready to eat.

## HOT TIPS

1. Ensure that the shallots are chopped finely.
2. Ensure that the nuts are chopped well *without* making it a powder consistency.
