

CROCODILE RIVER

What you need: two skipping ropes

Music requirements: None

Age suitability: 3+

Lie the skipping ropes a couple of metres to make a river. The children then run around the room jumping in and out of the river. You stand with your back turned to the river and yell out "Stop!". Anyone in the river when you yell "Stop!" gets eaten by the crocodiles and is out of the game.

If you have a lot of young children and you don't want anyone being knocked over they can form a line along one side of the river and then run across the river turn around and run back and just keep repeating that. They will eventually separate because they will be at different paces.
