

# DIY NON TOXIC FINGERPAINT

Author: Red Ted Art at [www.redtedart.com](http://www.redtedart.com)

## Ingredients

- 3 tbs sugar
- ½ tsp salt
- ½ cup corn starch
- 2 cups water

## Instructions

Combine all ingredients into a small saucepan. Warm until mixture thickens. Cool and pour in containers. Add food colouring to create desired colours.

Left over baby jars are the perfect containers. Don't use too much cornstarch or you will get gloppy paint. Just reduce cornstarch or thin with water for a smoother texture.
