

FIND YOUR PARTNER

What you need:	Nothing
Music requirements:	Yes
Age suitability:	4+

The children form two circles with one circle being inside the other. There has to be the same number of children in each circle. The children in the inner circle face out and the children in the outer circle face inwards.

The children join hands with the person opposite them. Tell the children that they are their partners and that when the music starts they move around in the circles in opposite directions. When the music stops they have to find their partner and sit down. The last children to sit down are out.

The children let go of each other's hands. Start the music and ask the children to start moving in their circles in different directions. Periodically stop the music until the last partnered children are standing. The last partnered children standing are the winners (if you are playing for winners).

If you don't have an even number of children ask an adult to join in or make a group of three.
