

FISHING

- What you need: a large sheet or tablecloth
- a stick with a piece of string tied to it (for a rod)
- some small lightweight wrapped presents
- Music requirements: None
- Age suitability: 2+

Hang the sheet or tablecloth at adult waist height across one part of the room or yard (use a string tied across two kitchen chairs) so that the children cannot see behind it.

Sit all the children on one side and call one child up at a time to go fishing. Give the child the rod and let them fish over the top of the sheet for a present.

You will need an adult on the other side of the sheet to tie the present onto the string.

Make sure the presents are not boy / girl specific but rather suitable for either. Good ideas for presents are pens, crayons, stickers, small jars of playdoh.
