

GUESS WHAT ANIMAL I AM

What you need:	Nothing
Music requirements:	None
Age suitability:	2+

Ask the children to sit in a circle facing into the centre. One child comes forward and you whisper a type of animal in their ear. The child acts out that animal (without making any noises) in front of the other children. The other children in the circle have to try to guess what animal is being acted out. The child who guesses the right animal has the next turn to act out an animal.

If you have young children it may assist to let the young children make noises when acting out the animal.
