

HOP BUNNY HOP

What you need:	Nothing
Music requirements:	None
Age suitability:	3+

The children hop around the room. The older children can hop on one leg and the younger children can hop on two. They continue to do this until you shout out “Danger, a....”. For example, you might say “Danger, a tiger” and then everyone has to stop very still and not move. Anyone who moves has to sit out. When you tell the children that the “Danger is gone” the children start hopping again.

You can adapt these game so that the children are leaping like frogs, fluttering like butterflies or flying like a plane or a bird.

The sources of danger can be anything, for example, a farmer, hunter, Indian, hippo.
