

JELLY QUARTERS

INGREDIENTS

Packets of desired jelly
Bag of Oranges
Water

METHOD

1. Cut the oranges into halves and scoop out the middle part of the orange to create a cup. Once you have scooped out the orange centre wash the skin and inside and then dry.
2. Mix the jelly according to the instructions on the packet and then pour into the orange halves.
3. Place into the fridge to set.
4. Once the orange halves are set cut them in half to serve.

HOT TIPS

1. Sit the orange halves onto a cupcake patty tray to balance to ensure they don't tip over or spill.
2. Be sure that the jelly is set well before cutting them up.
