

# MEMORY RECALL

What you need: a large tray or table covered with a selection of small objects  
pen and paper for each person

Music requirements: None

Age suitability: 3+

Ask the children to have a good look at all the things on the tray and remember as many as they can. You then throw a blanket over the tray or place a box over the tray so that they cannot see the objects any longer.

Each person writes down as many items as they can remember. The one who remembers the most wins.
