

OBJECT HUNT

What you need:	object in the theme of your party
Music requirements:	None
Age suitability:	2+

Hide the object somewhere before the children get to the party or hide the object whilst the children are occupied with something else.

Tell the children what object they are looking for and then send them hunting. When they get close you tell them they are getting warmer or if they move away tell them they are getting colder. Whoever finds the object gets to hide it for the next round.

If the object is unusual then show the children before they start or a picture of the object.

This game can be adapted to be a teddy bear hunt for a teddy bears picnic themed party (see other games).
