

# WHAT'S THE TIME MR WOLF

What you need:	Nothing
Music requirements:	None
Age suitability:	5+

You can be Mr Wolf or choose a child to be Mr Wolf. Mr Wolf stands at one end of the garden facing away from the children who are in a line next to each other across the other end of the garden.

To start the game the children take one step towards Mr Wolf and call out "What's the time Mr Wolf". Mr Wolf can answer any number between one and twelve. Whatever number Mr Wolf calls out that is the number of steps the children must take forward towards Mr Wolf. If Mr Wolf yells out "Dinner time" he turns and chases the children back to the starting line. If Mr Wolf catches anyone that child becomes Mr Wolf. The winner is the first child to cross the line where Mr Wolf is standing without getting caught.

If you are playing in a small space the children don't have to take the number of steps that corresponds with the time but just one step for each time answered.

This game is better played in a big open space.
